

# Comprehensive list of funding sources

Compiled by Prof. Maja Lazarević and Prof. Justyna Wiland-Szymańska

August 2023

*This list is an excerpt from the larger list prepared by Maja Lazarević in the scope of the activity of WG1 / WG2 / WG4 "Establishment of the Database on Conservation actions on threatened plant species and institutions dealing with plant conservation in Europe of the COST Action CA18201 "ConservePlants - An integrated approach to conservation of threatened plants for the 21st Century".*

*This particular list contains diverse governmental, nongovernmental and private institutions, which provide or have provided in the past funds for plant conservation and are still active. The funds are available locally for actions in different countries or internationally. To learn about current grants and eligibility one needs to check the websites, for this list is aiming only to show diversity of sources to which one may apply.*

# International sources of funding - 1

---

## European Regional Development Fund

Country: HRV-SLO      Source: Public
